Course Overview

A course that teaches the higher-end, more advanced functionality of Adobe Captivate 2019.

About This Course

A course that teaches the higher-end, more advanced functionality of Adobe Captivate 2019.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

- You will learn advanced Adobe Captivate concepts. - You will learn to create highly interactive software simulation and to control the text that appears in the recording's text captions by editing Captivate's text capture templates. - You will create responsive lessons (using Fluid Boxes and Breakpoints) that automatically reflow to fit just about any kind of display including desktops, laptops, tablets, and smart phones. - Learn new features that Captivate now supports; such as, Virtual Reality with 360-degree images and videos along with interactive videos. - Fine-tune your Captivate production skills by leveraging object styles, master slides, themes, and advanced actions. - Engage your learners by adding variables, widgets, and learner interactions (including drag and drop) to your eLearning. - Learn to create object styles, apply them globally, and import and export them. Knock large projects down to size by learning to create branch groups. - Create branching scenarios that allow learners to plot their own path through your course. - You will also learn to create templates. - Ensure your eLearning can be used by people with disabilities by adding such 508-compliant features as accessibility text, keyboard shortcuts, and closed captions. - Enable Captivate's reporting features and, along the way, learn about Learning Management Systems, SCORM, SCOs, Manifests, and content packages.

Additional Course Details
