Course Overview

With its focus on iterative and incremental approach to project development, Agile is becoming the preferred project management methodology in many industries. While our PMI-ACP® course will help you pass the Agile certification exam, our Agile in Action course focuses on applying Agile principles in your every day work, to help you be better prepared to use these concepts to improve project success and efficiency. This course will focus on critical components of Agile project management and will go beyond PMI-ACP® content by addressing areas most important for project managers to get right. Learners will gain an understanding of best practices, discuss project issues incurred and identify potential solutions. This is an interactive course where participants will provide insight on best practices and learn from each other. Note: This course has been approved by PMI for 5 PDUs.
