

# Apache Tomcat Administration

**Duration:** 16.00 hours (2 days)

**13.0 CPD Hours**

**Rating:** ★ 4.6 (5,878 reviews)

## Course Information

**Delivery Format:** Instructor Led - Online

## Course Overview

### Apache Tomcat Administration Course Overview

This Apache Tomcat Administration course teaches the core skills needed to install and manage the Tomcat Web Container up to version 9.

As well as configuring the Tomcat Web Container, this hands-on course shows delegates how to deploy and monitor Java Enterprise Edition web applications. Delegates will also configure Tomcat to work with the Apache Web Server and third-party databases. We will also investigate troubleshooting, tuning and logging, as well as high availability concepts such as clustering and load balancing.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

## About This Course

### Apache Tomcat Administration Course Overview

This Apache Tomcat Administration course teaches the core skills needed to install and manage the Tomcat Web Container up to version 9.

As well as configuring the Tomcat Web Container, this hands-on course shows delegates how to deploy and monitor Java Enterprise Edition web applications. Delegates will also configure Tomcat to work with the Apache Web Server and third-party databases. We will also investigate troubleshooting, tuning and logging, as well as high availability concepts such as clustering and load balancing.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

## **Prerequisites & Entry Requirements**

### **General Prerequisites:**

## **Requirements**

Good operating system knowledge similar to the level covered on our Linux Introduction course or an equivalent Windows course is required. Whilst no prior knowledge of Tomcat is required, delegates should be from a relevant technical background. Some awareness of internet architectures and protocols is assumed.

# Learning Outcomes

---

**Upon successful completion of this course, participants will be able to:**

## Course Objectives

To provide the skills necessary to install, configure, manage, deploy applications to and understand the core aspects of Apache Tomcat.

## Additional Course Details

---

Nexus Humans, Apache Tomcat Administration training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise.
