

Apache Web Server

Duration: 16.00 hours (2 days)

13.0 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Apache Web Server Course Overview

This Apache Web Server course introduces the delegate to the main concepts of the APACHE Web server. The course covers the basic operation of the web server, configuration, URL mapping, directory indexing, virtual hosting, performance tuning, and security.

Although this course is based on the Linux distribution, the delegate should be able to apply the concepts covered on this course to any APACHE Web Server, despite the OS differences, as the configuration is the same on all platforms.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

About This Course

Apache Web Server Course Overview

This Apache Web Server course introduces the delegate to the main concepts of the APACHE Web server. The course covers the basic operation of the web server, configuration, URL mapping, directory indexing, virtual hosting, performance tuning, and security.

Although this course is based on the Linux distribution, the delegate should be able to apply the concepts covered on this course to any APACHE Web Server, despite the OS differences, as the configuration is the same on all platforms.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.
