

Certified Scrum Product Owner (CSPO)

Training

Category: Project Management | **Vendor:** Agile

Duration: 16.00 hours (2 days)

13.0 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Scrum is a framework that relies on cross-functional teams to deliver valuable products and services in short cycles or "increments" that enable continuous improvement, fast incorporation of end-user feedback, and accelerated delivery. Product Owners have a unique and demanding role in a Scrum environment. They decide what the Scrum team will create next in order to deliver more value to the customer and maximize the return on investment (ROI) for an organization. This comprehensive workshop prepares you for the Certified Scrum Product Owner (CSPO) certification and fulfills the requirement of a two-day CSPO training course taught by a Certified Scrum Trainer®. Upon active participation throughout the course, students will be eligible for the Certified Scrum Product Owner (CSPO) certification (there's no exam) and will receive a 2-Year Scrum Alliance Membership.

About This Course

Scrum is a framework that relies on cross-functional teams to deliver valuable products and services in short cycles or "increments" that enable continuous improvement, fast incorporation of end-user feedback, and accelerated delivery. Product Owners have a unique and demanding role in a Scrum environment. They decide what the Scrum team will create next in order to deliver more value to the customer and maximize the return on investment (ROI) for an organization. This comprehensive workshop prepares you for the Certified Scrum Product Owner (CSPO) certification and fulfills the requirement of a two-day CSPO training course taught by a Certified Scrum Trainer®. Upon active participation throughout the course, students will be eligible for the Certified Scrum Product Owner (CSPO) certification (there's no exam) and will receive a 2-Year Scrum Alliance Membership.

Who Should Attend

This workshop-style class is intended for those practicing or looking to serve as a Product Owner. It is also highly valuable for anyone involved in Agile-based projects within their organizations including Scrum Masters, Product Owners, Cross-Functional Team Members, Project Managers, Product Managers, etc.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Understand the responsibilities and the core competencies of an effective Scrum Product Owner
Identify Product Owner (PO) challenges, techniques, and best practices for working with stakeholders, customers, users, and Scrum teams
Learn the PO's role in developing a product vision and delivery strategy
Understand the role of the PO in defining product value
Test and validate product assumptions
Learn tools and techniques effective POs use to develop, order, and refine the product backlog
