

# FastTrack Red Hat 8 System

## Administrator

**Duration:** 32.00 hours (4 days)

**26.0 CPD Hours**

**Rating:** ★ 4.6 (5,878 reviews)

### Course Information

**Delivery Format:** Instructor Led - Online

### Course Overview

#### FastTrack Red Hat 8 System Administrator Course Overview

This highly practical instructor led FastTrack Red Hat 8 System Administrator course is designed to give experienced LINUX/UNIX administrators practical experience in the administration of a Red Hat Linux 8 System to the level required by the Red Hat Certified Systems Administration (RHCSA) certification.

System administrators already experienced in administering other LINUX/UNIX systems such as Solaris, HP-UX, AIX, and SUSE will gain valuable skills in Red Hat Enterprise Linux (RHEL) system administration.

This course features a high practical content and will be delivered at a fast pace with a strong emphasis on using the command line. Delegates should have previous command line experience of LINUX/UNIX, including but not limited to; cp, grep, find, mkdir, vim, ssh, tar, gzip and be capable of using man pages.

The delegate will learn modern system administration techniques and commands to administer a Red Hat Linux system. The command line is demonstrated and used extensively throughout the course.

This course is targeted to closely follow the official Red Hat curriculum and makes for an ideal practical refresher course prior to taking the RHCSA examination.

Similarly, the course is targeted to closely follow the official Red Hat curriculum for certification.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

## About This Course

---

### **FastTrack Red Hat 8 System Administrator Course Overview**

This highly practical instructor led FastTrack Red Hat 8 System Administrator course is designed to give experienced LINUX/UNIX administrators practical experience in the administration of a Red Hat Linux 8 System to the level required by the Red Hat Certified Systems Administration (RHCSA) certification.

System administrators already experienced in administering other LINUX/UNIX systems such as Solaris, HP-UX, AIX, and SUSE will gain valuable skills in Red Hat Enterprise Linux (RHEL) system administration.

This course features a high practical content and will be delivered at a fast pace with a strong emphasis on using the command line. Delegates should have previous command line experience of LINUX/UNIX, including but not limited to; cp, grep, find, mkdir, vim, ssh, tar, gzip and be capable of using man pages.

The delegate will learn modern system administration techniques and commands to administer a Red Hat Linux system. The command line is demonstrated and used extensively throughout the course.
