Course Overview

This course is aligned to the IIBA BABOK Version 3 and covers the IIBA knowledge areas on the Entry Certificate in Business Analysis (ECBA) exam. This Foundations of Business Analysis course is a practitioner based, skills training course for a beginner to intermediate audience, not an exam preparation course. The course provides students a clear understanding and total immersion into all of the facets of the business analyst role, including a thorough walkthrough of the various domain/knowledge areas that comprise the business analysis profession. Students are provided an opportunity to try their hand at several business analysis techniques for eliciting, analyzing, and modeling requirements. The business analysis work performed in strategy analysis and solution evaluation, which is most often the least familiar to business analysts, is thoroughly presented and explored. Students completing this course will be well equipped with new skills and knowledge that can be immediately applied on current and future projects.
