Who Should Attend

- Individuals involved in Information Security Management
- Individuals seeking to gain knowledge about the main processes of Information Security Management Systems (ISMS)
- Individuals interested to pursue a career in Information Security Management

Prerequisites & Entry Requirements

General Prerequisites:

There are no formal prerequisites for taking an ISO/IEC 27001 Foundation course, but some things to consider include:

Background: An interest in or background in information security or service management can be helpful.

Technical documents: The ability to read and understand technical documents in English is important because course materials and exams are usually in English.

Professional experience: While not required, some prior experience in an IT or data security role can be beneficial.

Additional Course Details

Nexus Humans, ISO/IEC 27001 Foundation training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the ITS Data Analytics course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.
