Course Overview

Professional Scrum Product Owner® (PSPO) is a hands-on, activity-based course where students explore how Product Ownership is crucial to the success of a product. Throughout the class, students learn a number of practices that they can use once they leave the classroom. Students will learn how Professional Scrum helps them to move from a project mindset to a product mindset. At the end of the class students will understand how the shift in mindset and new practices can be put into action with Agile Product Management. The course also includes a free attempt at the globally recognized Professional Scrum Product Owner I (PSPO I) certification exam.

About This Course

This course is appropriate for students in any industry where teams are working to solve complex problems. The Professional Scrum Product Owner course is for:

- Product Managers wanting to up-skill their agile proficiency
- Professionals interested in advancing their Product Ownership skills
- Product Owners with some experience in the role that are looking to improve their understanding or improve their use of Scrum and the Product Owner accountability
- Scrum Masters wishing to improve how they can coach Product Owners
