

Solaris 11 System Administration - Part II

Duration: 32.00 hours (4 days)

26.0 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Solaris 11 System Administration - Part II Course Overview

This Solaris System Administration training course will provide delegates with practical experience of configuring various aspects of an Oracle Solaris 11 system. This course extends the skills a delegate will have gained from attending the Solaris System Administration - Part 1 course.

Delegates will cover more specialised tasks such as configuring network failover, Zones, Role Based Access Control (RBAC), managing system performance and also gaining other skills which will help with preparing for the *Oracle Certified Professional, Oracle Solaris 11 System Administrator (1Z0-822)*.

Similarly, the course is targeted to closely follow the official Oracle Solaris curriculum for certification. Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

About This Course

Solaris 11 System Administration - Part II Course Overview

This Solaris System Administration training course will provide delegates with practical experience of configuring various aspects of an Oracle Solaris 11 system. This course extends the skills a delegate will have gained from attending the Solaris System Administration - Part 1 course.

Delegates will cover more specialised tasks such as configuring network failover, Zones, Role Based Access Control (RBAC), managing system performance and also gaining other skills which will help with preparing for the *Oracle Certified Professional, Oracle Solaris 11 System Administrator (1Z0-822)*.

Similarly, the course is targeted to closely follow the official Oracle Solaris curriculum for certification. Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

Prerequisites & Entry Requirements

General Prerequisites:

Requirements

Attendance on the Solaris Introduction and Solaris 11 System Administration - Part I courses or similar knowledge is required. Shell Programming knowledge is beneficial but not essential. This skill can be gained by attending the Solaris Shell Programming course.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Course Objectives

Administering Solaris systems involves many specialised tasks including; monitoring system events with syslog, performing network installations, dealing with various aspects of the network environment and assigning system roles to users. Delegates taking this class will gain the necessary knowledge and skills to perform these tasks.
